AI & Hiring Integrity

At Radformation we believe AI can be an incredible tool for innovation, but our hiring process is all about getting to know you, your skills, experience, and unique approach to problem solving. We ask that all interviews and assessments be completed without tools that generate answers in real time. This helps ensure a fair process for everyone and allows us to see your authentic work. Using such tools during the process may affect your candidacy.

Benefits & Perks — What Makes Us RAD
We care about our people as much as we care about our mission. We offer competitive compensation, benefits, and the opportunity to make an impact in the fight against cancer. The salary range for this role is $160,000 - $200,000 USD base, plus bonus eligibility.

For US teammates (via TriNet):
Health & Wellness

- Multiple high-quality medical plan options with substantial employer contributions toward premiums, often covering the full cost depending on the plan selected
- Health coverage starting on day one
- Short-term and long-term disability and supplementary life insurance

Financial & Professional Growth

- 401(k) with employer match vested immediately
- Annual reimbursement for professional memberships
- Conference attendance and continued learning opportunities

Work-Life Balance & Perks

- Self-managed PTO and 10 paid holidays
- Monthly internet stipend
- Company-issued laptop and one-time home office setup stipend
- Fully remote work environment with virtual events and yearly retreats, because we like to have fun while doing work that matters
